Important Service Condition

The Southern Cross Broadband installed antenna remains the property of Southern Cross Broadband.

Service Availability & Requirements

If your property can't support the ordered speed tier at the time of installation or in the future, you can lower your plan speed tier at no cost or withdraw your service order.

The 1,000mbps speed tier is only available in certain fixed wireless enabled areas, additional qualification checks and an attended site survey may need to be performed to determine the availability of speeds at your property.

Fixed Wireless Service Speeds

All speeds are best effort and are not guaranteed.

The maximum access service speed describes the theoretical maximum speed attainable by the Southern Cross Broadband Installed Antenna (modem) at the highest transmission rate of the wireless network made possible by the technology.

Factors such as distance, environmental, or technical limitations may prevent the fixed wireless signal from achieving maximum speeds.

For factors that can affect the overall transmission rate between the Southern Cross Broadband Network Tower and the Southern Cross Broadband Installed Antenna you can visit <https://sxbb.net.au/>

In addition, below are factors which can affect the speeds received by your devices within your home (Local-Area-Network (LAN)):

- Connecting to the router via WiFi instead of an Ethernet LAN cable (most common).
- Performance and configuration of your network equipment (such as routers, switches, WiFi extenders, power-line adapters, or hardware firewalls).
- The performance and configuration of any third-party network equipment
- The number of users simultaneously accessing the local network and/or internet service at any one time.
- The use of VPN software installed on your end device(s) or network equipment.

Information about Pricing

All prices in this summary are inclusive of GST.

Installation and Re-Activation Fees

In addition to the monthly charge (and router cost if purchased), customers will be invoiced for the following:

Zone	Installation/Setup Fee
Zone 1 - Geraldton, Jurien, Albany, Kalgoorlie	\$300
Zone 2 - Mt Magnet, Meekatharra, Dongara, Kalbarri	\$500

Where suitable existing Southern Cross Broadband equipment is available at your property, a Re-Activation Fee may be applied instead of an Installation Fee.

Minimum Term	Re-Activation Fee	Re-Activation Fee
	No Site Visit	With Site Visit
1 Month	\$100	\$200

Installer site appointments are required for installations and possibly for re-activations.

Extra Charges

On occasion, some sites will present a higher degree of difficulty and complexity to install or relocate the service, or may require additional materials to be provided. If additional labour, materials or equipment hire are required, a quote will be provided and must be accepted before the installation work can commence.

If the quote is not accepted, the order will be cancelled without penalty.

Equipment

An eWAN WiFi Router is required for the service to work. You may choose to Bring-Your-Own (BYO) eWAN WiFi Router, or you may choose to purchase one from Southern Cross Broadband for an additional fee, for full hardware pricing see our pricing schedule at <https://sxbb.net.au/>
